Changing Minds...

One Step at a Time!
Recovery

In recent years, there has been increased recognition that recovery can refer to a person’s improved capacity to lead a fulfilled life that is not dominated by illness and treatment. This is known as the “recovery approach” or “psychosocial rehabilitation”. In contrast to the medical approach, the recovery approach does not require people to experience reduced symptoms or the reduced need for medical and social care. It is more about experiencing the improved quality of life and higher levels of functioning despite the illness. Recovery in this sense does not mean that the illness has gone into complete remission. It means that over time, through what for many is a long and difficult process, individuals can come to terms with their illness by first learning to accept it and then moving beyond it. They can learn to believe in themselves as an individual by learning their strengths as well as their limitations and coming to realize that they do have the capacity to find purpose and enjoyment in their lives in spite of their illness. The successful recovery model sees individuals with mental illness as active participants in their own recovery process.
About Us
NAMI, the National Alliance on Mental Illness, is the nation’s largest grassroots mental health organization dedicated to building better lives for the millions of Americans affected by mental illness.

What started as a small group of families gathered around a kitchen table in 1979 has blossomed into the nation’s leading voice on mental health. Today, we are an association of hundreds of local affiliates, state organizations and volunteers who work in your community to raise awareness and provide support and education that was not previously available to those in need.

What We Do
We educate. Offered in thousands of communities across America through our NAMI State Organizations and NAMI Affiliates, our education programs ensure hundreds of thousands of families, individuals and educators get the support and information they need.

We advocate. NAMI shapes the national public policy landscape for people with mental illness and their families and provides grassroots volunteer leaders with the tools, resources and skills necessary to save mental health in all states.

We listen. Our toll-free NAMI HelpLine allows us to respond personally to hundreds of thousands of requests each year, providing free referral, information and support—a much-needed lifeline for many.

We lead. Public awareness events and activities, including Mental Illness Awareness Week (MIAW), NAMIWalks and other efforts, successfully combat stigma and encourage understanding. NAMI works with reporters on a daily basis to make sure our country understands how important mental health is.

NAMI Southern Arizona offers an array of support and education programs for families and people with mental illness. For more information, contact us by calling (520) 622-5582 or visit www.namisa.org.

NAMIWalks is NAMI’s annual mental health awareness program, and our largest fund-raising and awareness campaign is “Changing Minds...One Step at a Time.” Nationwide the Walks are projected to raise over $10 million this year.

Every journey begins with that first step. This year thousands of people in more than 80 communities across the nation will join NAMI and walk together to raise money and awareness about our country's need for a world-class treatment and recovery system for people with mental illness.

Team building is an important aspect of NAMIWalks. Teams are a great way to bring people together toward a common goal or enjoy a little friendly competition among each other. The more people that form teams and recruit walkers, the more awareness will be raised about the need for quality mental healthcare.

All walkers are encouraged to reach out to family, friends, co-workers and business associates for donations in support of their participation in the Walk. The NAMIWalks events are used to raise money and awareness to ensure NAMI’s vital programs and services are available at no cost to provide help and hope to those in need.

A Positive Poem: Butterflies
April 24, 2016 - Hope in Stability

A positive poem.
So difficult to capture.
As elusive as that butterfly
Of stability,
The one that rarely leaves
Its cocoon.
She wants to spread her wings.
I know her well.
She can fly so high:
50 percent of the time.
She may not have the pretty wings.
They may be tattered and smudged,
Oils of too many hands
Rubbing away their glow.
But when unfurled,
Oh mighty Sirens be
Calling out,
Soaring above,
Her wings letting her direct the winds
Rather than them holding her
Caught in their sway.
That butterfly
When unfurled
Can sing the most positive poem.
It’s hard to remember, sometimes.
Hard to forget sometimes.
A blessed duality.
But that positivity always
Comes around.
Like cocoons releasing in the
Depths of winter.
And leaving the negative
Sheath of her
Sorrow behind.

THANK YOU 2016 SPONSORS!
Benefiting NAMI Southern Arizona
On behalf of the NAMI Southern Arizona Board of Directors, I would like to extend a huge THANK YOU to everyone who contributed to the success of the 2016 NAMI Walk! The Walk again exceeded the targeted goal and that is due to the efforts of the dedicated staff of NAMI-SA and the army of volunteers who spent months organizing this event at our new Walk location at Kennedy Park. Participants enjoyed the beautiful spring day at the Festival Stage area and along the desert walking trails in the Park.

Thanks also to everyone who participated in this year’s Walk—by organizing a Walk Team, by making a personal donation, by asking others for donations, and by coming out on Walk Day to join the enthusiastic crowd of individuals and families who care about the work of NAMI-SA and its impact in Tucson.

NAMI Southern Arizona’s mission is to improve the quality of life for all those affected by mental illness in our community. The funds from the NAMI Walk help make possible the array of NAMI’s education, support and advocacy services to realize that goal. Thanks again!
